ABSTRACT

The 2000 Factbook about the University of Alaska-Anchorage (UAA) provides student enrollment data, student performance data, faculty information, and financial information. The UAA encompasses a university system, five affiliated community colleges, and a distance learning program. Work has been completed for UAA's decennial institutional accreditation self-study and attention will be shifting to the development of key performance indicators and to preparing data in support of program assessments. Enrollment data include student headcount and credit hours percent change, UAA headcount by student characteristics, student credit hours by campus and course level, and student credit hours by subject/discipline. Highlights include: (1) the fall 1999 total student headcount for UAA campuses was 20,003, a decrease of 4% from the previous year; (2) student characteristics as a percent of total UAA student headcount shows that 43% were part-time female students, 25% were part-time male students, 18% were full-time female students and 14% were full-time male students; and (3) about 34% of total Anchorage first time freshmen were enrolled in remedial coursework for fall 1999 semester. Data such as student enrollment in remedial coursework, participation in adult learning center programs, undergraduate grade analysis, and mean SAT scores for freshmen were used as key performance indicators in this report. It is the policy of the University of Alaska to provide equal education and employment opportunities and to provide service and benefits to all students and employees without regard to race, color, religion, national origin, sex, age, disability, or status as a Vietnam era or disabled veteran. This policy is in accordance with the laws enforced by the Department of Education and the Department of Labor, including Presidential Executive Order 11246, as amended, Title VI and Title VII of the 1964 Civil Rights Act, Title IX of the Education Amendments of 1972, the Public Health Service Act of 1971, the Veterans' Readjustment Assistance Act of 1974, the Vocational Rehabilitation Act of 1973, the Age Discrimination in Employment Act of 1967, the Equal Pay Act of 1963, the 14th Amendment, EEOC's Sex Discrimination Guidelines, and Alaska Statutes 18.80.220 and 14.18. Inquiries regarding application of these and other regulations should be directed to the University's Affirmative Action Director, the Office of Civil Rights (U.S. Department of Education, Washington, D.C.), or the Office of Federal Contract Compliance Programs (U.S. Department of Labor, Washington, D.C.).

INTRODUCTION

INTRODUCTION TO THE 2000 UAA FACTBOOK

The availability of timely, reliable and valid measures of the work we perform is vital to the management of our enrollment and to the advancement of the quality of our academic programs and support services. Over the past several years, the Office of Institutional Planning, Research and Assessment has continuously improved the availability and usefulness of institutional data.

Like its predecessors, this year's Factbook improves the usefulness and accuracy of the data contained herein. We have completed the work for our decennial institutional accreditation self-study and attention will shift this year to the development of Key Performance Indicators and to preparing data in support of program assessments.

The information contained in this factbook reflects the empirical dimensions of our academic programs and the staffing of our schools and colleges. Our past early retirements, combined with new academic initiatives, necessitate a continuing scrutiny of the data to secure a balanced allocation of faculty and staff resources within our limited financial constraints. Filling vacated positions and arguing for new ones will be influenced by such measures as faculty-student ratio and numbers of majors and degrees, as well as the ratios of part- to full-time faculty. Thus the data herein makes an important contribution to our decision making.

As in prior years, I commend the 2000 FACTBOOK to you and encourage you to suggest ways in which we can continue to build on its usefulness.

Sincerely,

Edward Lee Gorsuch
Chancellor

UAA 2005: OUR MISSION, OUR CORE VALUES, OUR ASPIRATIONS, OUR GOALS

OUR MISSION

The University of Alaska Anchorage inspires learning and enriches Alaska, the nation and the world through our teaching, research, creativity and service.

As the urban center of the University of Alaska System, UAA is a comprehensive metropolitan university located in Anchorage with community campuses serving Southcentral Alaska.

We provide opportunities to all who can benefit from educational programs of high quality.

OUR CORE VALUES

UAA faculty, staff, students and alumni are a community bonded together by shared values to advance learning and academic excellence, to engage our talents and knowledge in service to Alaska and to act with integrity and good stewardship.

OUR ASPIRATIONS

UAA aspires to become a frontier of learning, creativity and discovery—a university of first choice in Alaska and the Pacific Northwest.

OUR GOALS

GOAL 1: ADVANCE EXCELLENCE IN LEARNING, CREATIVITY AND DISCOVERY

We will:

- Advance the quality of teaching and learning at all levels, in all programs
- Increase the graduation rate of degree-seeking students and the success rate of all students
- Expand the quality and quantity of scholarly works, creative expressions and professional service
- Create a library of the 21st century
- Become a national center of summer academic programs
- Become more effective and efficient in the use of information technology to support all aspects of our work
- Reaffirm accreditation for UAA and for our accredited professional programs.

UAA 2005: OUR MISSION, OUR CORE VALUES, OUR ASPIRATIONS, OUR GOALS (CONTINUED)

OUR GOALS (CONTINUED)

GOAL 2: FOCUS ACADEMIC PROGRAMS AND SERVICES ON STATE AND STUDENT NEEDS

We will:

- Increase the proportion of Alaska's college-bound high school graduates who attend and graduate from UAA
- Offer courses and programs in highest demand by students and regional residents
- Meet the highest demands in our region for professional education and workforce training
- Increase the diversity of students, faculty and staff from Alaska, particularly Alaska Natives and other underrepresented populations, and from other states and nations
- Become more student and community friendly and foster increased participation in campus life.

GOAL 3: FULLY ENGAGE OUR TALENT AND KNOWLEDGE FOR THE FUTURE OF ALASKA

We will:

- Improve, in partnership with public schools, the preparation of teachers
- Increase, in partnership with providers, the types and numbers of health professionals and expand health research
- Expand, in partnership with industry and government, UAA contributions to the emerging logistics industry
- Enhance cultural, educational and economic contributions to Alaska and the North Pacific region
- Increase the participation of students significantly in research, service and creative expressions.

1. Total UAA includes Anchorage, Kenai, Kodiak, Mat-Su, Military Programs, UALC (RD), and PWSCC.

2. Military Programs does not include Elmendorf AFB or Ft. Richardson.

3. Headcount includes students enrolled in credit courses at the 050 level and above, with auditors.

4. Percentages may not add to 100 due to rounding.

5. For this table, and all tables which include class standing, the following definition was used for first-time freshman: Student admitted with an admit code of FT (first-time admitted), and having a student type of F (first-time enrolling), or a student type of C (continuing enrollment)—for those continuing to Fall from Summer. The current semester is the first time the student has ever attended an institution of higher education. Except, the student could have been first-time in Summer semester and continued into Fall, and still be a first-time freshman. The current definition does not include students who could be first-time freshmen if they are current high school graduates, even though they may have taken courses for credit previously. A process for identifying these students has begun and future reports should include this sub-group as well.

6. For this table, and all tables which include Alaska Region of Origin, the following definition was used: Alaska Region of Origin determined by using the origin at entry (OE) address given by students at the time of enrollment. For students who did not provide an OE address, the mailing address was used to determine origin at entry.

1. Total UAA includes Anchorage, Kenai, Kodiak, Mat-Su, Military Programs, UALC (RD), and PWSCC.

2. Military Programs does not include Elmendorf AFB or Ft. Richardson.

3. Headcount includes students enrolled in credit courses at the 050 level and above, with auditors.

4. For this table, and all tables which include class standing, the following definition was used for first-time freshman:
Student admitted with an admit code of FT (first-time admitted), and having a student type of F (first-time enrolling), or a student type of C (continuing enrollment)—for those continuing to Fall from Summer. The current semester is the first time the student has ever attended an institution of higher education. Except, the student could have been first-time in Summer semester and continued into Fall, and still be a first-time freshman. The current definition does not include students who could be first-time freshmen if they are current high school graduates, even though they may have taken courses for credit previously. A process for identifying these students has begun and future reports should include this sub-group as well.

5. For this table, and all tables which include Alaska Region of Origin, the following definition was used:
Alaska Region of Origin determined by using the origin at entry (OE) address given by students at the time of enrollment.
For students who did not provide an OE address, the mailing address was used to determine origin at entry.

1. These are minimum numbers; not all respondents answered these questions.

2. Source: All data provided by UAA Adult Learning Center, September 2000.

3. This information incorporates changes in reporting format and definitions instituted by the Department of Education and the department of labor. The Adult Secondary Education category has now been expanded to include all students passing a G.E.D. and those receiving a high school completion diploma.

4. The Adult Learning Center created a new database in FY98 that corrects for duplication of student headcount. Hence, FY98 and FY99 figures are not directly comparable figures reported in previous factbooks.

TIME BLOCK USAGE

The following graphs represent classroom usage for Spring 1999 and charts the number of classes scheduled for each time block. Time block usage is broken down for Monday/Wednesday, Tuesday/Thursday, Friday, and Weekend classes, as well as combined days usage.

For the Spring 1999 semester, there were a total of 67 general classrooms, 10 of which had restrictions as to when classes were allowed to be scheduled into these rooms. All courses have been included in the report, whether a course used the room for one day or the entire semester. Any class using two or more time blocks was counted in each time block the class used. Crossed and stacked courses were counted only once.

1. Source: Banner HR Fall Reporting Extract, December 1, 1999; Banner SI Official Fall 1999 Closing.

2. PTE=Part-time Equivalent which is obtained by dividing the total course credits by 15.

3. The Course Credit Hour (CCH) generated by a faculty member goes to the department in which the course is offered, not to the department to which the faculty member belongs.

4. Instructional activities included in CCH figures are as follows: Lecture, lecture/lab, seminar, lab, practica, research, workshop and distance study.

5. If the CCH has a minimum and a maximum (e.g., a variable credit course), the faculty member is assigned the minimum credit, but the student is assigned the credit for which he/she registered.

6. The CCH excludes auditors.

2. The Budgeted FTE is obtained from Faculty Table 1, page 137-139, and Part-time PTE is obtained from Faculty Table 2, page 141-145.

3. Student FTE figure are obtained from "Student Credit Hours by Campus and Course Level" (Student Table 7, page 58-69).

4. For courses taught by faculty from other department, the Student FTE is credited to the department in which the course is offered, not to the department the faculty member belongs. This resulted in a higher Student/Faculty Ratio for departments in which faculty are mainly from other departments. (Engineering Science and Honorary Program are examples.)
